

URBANCAPE

Timeless Distinction – Contemporary Elegance

PRESS RELEASE

Urban Cape Interiors Launches Exclusive New Furniture Collection

London-28 October 2009: Leading design consultancy and furniture manufacturer Urban Cape, are excited to launch the latest editions to their timeless and contemporary furniture collection.

The new collection offers both a blend of contemporary with a twist of the traditional and draws upon the elements of purity, sculpture and geometry in an ensemble of simple, elegant shapes. Each piece is impeccably hand-crafted from extraordinary materials and finishes combining deep solid timbers, exotic hides, sumptuous soft plain and printed leathers as well as rich leather clad options. Each piece is engineered to meet the highest standards of durability and quality.

Led by Charlotte Candillier the collection is designed by the London-based team, and the products are developed and manufactured by highly skilled craftspeople in both the UK and South Africa. Urban Cape also uniquely offers its clients the advantage of a collection that can be distinctively customised to suit any specification.

Note to editors: The consultancy was established in 2003 and is based in Parsons Green, London.
